

Cascade Clamps

Cascade Clamps - Cascade Manufacturing Company was founded in Portland, Oregon in 1943. They started out as a small machine shop initially employing 4 individuals. Product sales for their first year of operation totaled 60 thousand dollars. The first recorded sales revenues involved the machining and assembly of stainless-steel valves, pipe fittings and different components. During five years of operation, the company had stretched to forty staff and their yearly sales volume had increased to three hundred thirty thousand dollars. At present, Cascade is among the leading global producers within the material handling industry.

Manufacture and design of the company's very first hydraulic cylinder paved the way in Cascade's aggressive pursuit of better business possibilities. Over the past sixty years, the material handling trade has matured into a highly sophisticated field and Cascade has proudly performed a part in this development. Cascade presently continues to develop as the best supplier of forklift attachments and numerous related items. The business feels certain in their capability to be able to continue to lead the way within the business by understanding buyer's requirements in the future and remaining competitive within the global market.

In the 1950's, Cascade started designing, making and selling hydraulic attachments. Construction was finished in 1956 on a brand new facility in order to house all of the office and plant operations in Portland, Oregon at the company's current headquarters. Following 15 years of business, total staff reached 180 workers and sales had reached nearly 2.3 million dollars.

A second production plant was built in 1959 in Springfield, Seattle. 1960 marked Cascade's initial transfer into the global world of the material handling industry as the company recognized interest in Australia, the Netherlands and England.

In the year 1964, the company altered its name to the Cascade Corporation. Then in 1965, the company went public with an initial offering of two hundred thousand shares of common stock. Ever since then the company has expanded its manufacturing amenities throughout the continental US to the locations Warner Robins Georgia to go along with its already existing plants in Springfield, Seattle and Portland, Oregon. Cascade products are manufactured globally because of lots of subsidiary operations. In 1994, a new plant was accomplished in Almere, the Netherlands which is Cascade's European head office. This facility is designed to be the essential customer service centre.

Cascade further expanded their product base in the year 1996 and the year 1997 after buying five corporations, which included the Kenhar Corporation, the worldwide best in forks.
