

TCM Forklift Part

TCM Forklift Parts - Forklift trucks are an important player in the material handling field of every international industry. Transporting industrial goods occurs each day on our busy world. Initially innovated as industrial vehicles in the 1930s in the United States, forklifts gained recognition after WWII in the 1940s. Becoming an efficient and reliable means to material handling solutions, the need and practicality of these machinery spread internationally.

In nineteen forty nine, founded by Mr. N. Niwa, the original Toyo Carrier Manufacturing Company Limited, which was later named Toyo Umpanki Co, was established. Currently the company is simply called TCM Corporation. Throughout the years, TCM forklifts have become an international leader in lift truck manufacturing and have built a solid reputation in the trade. TCM started building lift truck manufacturing sites outside of Japan during the 1980s and is presently engaged in forklift manufacturer at three foreign factories in Europe, China and the United States.

With more than fifty years of accumulated expertise and technology, TCM has been proudly making various models of industrial forklifts, making their models recognizable all over the globe. With a strong and energetic staff, TCM has been able to continually work towards becoming a future leading material handling business.
